

Dear HD students

The School of Materials Science and Engineering (MSE), NTU is seeking student assistants to support its project that examines stakeholders' views on the current and future Materials Science and Engineering education landscape.

They require assistance to design and carry out surveys and focus groups discussions as well as data analysis of the surveys. Given the current situation, surveys and focus groups discussion will most probably be done online. Students with prior experience in designing surveys, data collection and analysis will be preferred.

The payment rate is \$15/hour.

Successful students will be required to sign a non-disclosure agreement at the start of the project, and delete any copies of the recorded surveys and discussions at the end of the project. Should you be interested, please contact Associate Professor Tan Lay Poh at lptan@ntu.edu.sg directly.

Best regards

Higher Degrees Section
