Irene Tan Liang Kheng Conference Grant for NIE Students

1. The grant will support students to attend conferences (local or overseas) towards developing their research mind set and capabilities, as well as promoting the name of National Institute of Education, Nanyang Technological University, Singapore (NIE NTU Singapore) in research arenas. Aside from attaining a research outcome through inquiry on specific subject areas and into their practice, the opportunity to present their findings in conferences is another goal that they could aspire to. In stretching their capabilities, they are further developed as future educators and leaders while attaining a broader perspective in education. Conferences will also provide a platform to learn from experts in various disciplines, get feedback from academics or peers and widen their network.
2. Successful applicants will be required to produce a short video clip or write-up to document their learning experience. This will be inserted in suitable NIE platform(s) with acknowledgement of the fund which has supported their work.
